Gen. Shepley had arrived. NEW YORK, September 19 - The World's New Orleans correspondent, writing on the 11th, gives some account of a movement, probably in Texas, in three columns, under Generals Frank lin, Washburne and Herron.

The gunboat Sachem, which was in company with the Citizen, was captured. The Tribune's special savs:

In a private letter received here to day, our Consul at Liverpool says that one of the Anglorebel rams is ready for sea, and expresses the de cided opinion that the British Government will take no steps to prevent her from sailing. An inmate of the Libby prison writes on the 8th of August that twenty of our officers and sol diers and soldiers are quartered there, and that they agens well and comfortable as could be expertel under the circumstances.

DR. JOHN BULL'S

MEDICAL.

The Latest and Most Important Discovery of the Nine eenth Century.

O MAN'S NAME IS MORE INTIMATELY CONnected with the history of the Materia Medica of the United States, o more favorably known as a pioneer in medical discovery, than that of JOHN BULL, of Louisville Ky. His inimitable preparation of Sarsaparilla has long stood at the head of the various compounds of that valuable drug. His compound Pectoral of Wild Cherry has become a household word throughout the West and South; and his Worm Lozenges, in less than a year after their introduction. attained a reputation as widespread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON, which is the basis of the Bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom i's virtues have been known for more than two hundred years Armed with it, the Indian bids defiance to the most deadly malaria, and handles without fear the most venomous serpents. It is a belief with them that while there is breath left in the body the Cedron is potent to cure, no matter what the disease may be, While Dr. Bull is not prepared to indorse this extravagant pretension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that, as a remedy and preventive for all diseases arising

n Central America and the West Indies. In

and its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the whole range of the Materia Medica that can for a moment bear a comparison with it in this disease. A full account of this wonderful plant may be found in the eleventh edition of the U.S. Dispensatory, pages 1387

A series of experiments, in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combinatian of Cedron with other improved tonics, the whole preserved in the best quality of copper-distilled Bourbon whisky, which he is confident has no equal in He might furnish a volume of certificates, but the public have long since learned to estimate such things at

their true value. The safest plan is for every one to test for himself the virtues of a new medicine. Give the

CEDRON BITTERS one trial, and you will never use any others. It is not nece-sary to publish a long list of diseases for which the Cedron Bitters are a specific. In all diseases of the STOMACH, BOWELS, KIDNEYS,

ment of the Stomach or Bowels; In GOUT, RHEUMATISM and NEURALGIA: And in FEVER AND AGUE; It i destined to supersede all other remedies. It not nly cures all these diseases but it prevents them. A wine glass full of the Bitters taken an hour before each meal will obviate the ill effects of the most unhealthy climate and screen the person taking it against

disease under the most trying exposure.
